WHO WE ARE

Founded in 2017, Social Lab started with a focus on property photography and videography. Working closely with agents, we saw a bigger need—strategic, consistent marketing that not only showcases homes but also builds powerful personal brands. From there, we grew into a full-service content and marketing team.

Today, our passionate, experienced crew spans photography, videography, graphic design, and content creation, partnering with some of the Gold Coast's leading real estate and buyers agents. With deep property knowledge, we know what cuts through, builds trust, and generates real leads.

We're a team of energetic, creative professionals driven to see our clients win. More than a marketing team, we become an extension of your business, creating high-quality content, fostering authentic brands, and focusing on long-term growth, not short-term noise.

WHAT IS THE ECOSYSTEM?

The Ecosystem is your all-in-one marketing hub, designed to simplify, streamline, and amplify your brand. From high-quality content and strategic social planning to insights, performance tools, and ongoing support, everything you need is in one place.

No more juggling platforms or partners, our connected system helps you stay consistent, save time, and grow your audience. Whether capturing attention, generating leads, or nurturing relationships, we support you every step of the way.

WHAT WE DO.

SOCIAL MEDIA MANAGEMENT

We take care of your platforms so your brand stays active and consistent. From captions to scheduling, every detail is handled with purpose. It's about building presence and keeping you front of mind.

CAMPAIGN MANAGEMENT

We design ad campaigns that put your brand in front of the right people. Targeting, testing, and optimisation ensure every dollar works harder. It's not just ads, it's strategy that converts.

CONTENT CREATION

Video is where attention lives, and we create content that stands out. From concept to filming, every reel is crafted with intention. The result? High-quality visuals that engage and inspire action.

SOCIAL MEDIA REPORTING

Clear insights show what's working and where to improve. We track performance across platforms to guide smarter decisions. Reporting turns numbers into strategies for growth.

CLIENT | CULLEN & CO

We partnered with Cullen & Co to build brand authority, maintain industry presence, and position them as market leaders. With limited time to focus on social media, they joined The Ecosystem Program, which provided a complete strategy and handled all content creation. We grew their social presence through a mix of community, property, high-end property, and personal branding content, while managing ad spend, providing recommendations, and collecting client data to support their goals.

MATT HUGHES

CLIENT APPRECIATION.

“

“Social Lab has been a major part of our company’s growth and outreach over the past 2 years. Their expertise and advice in regard to content, advertisement, and social media strategy have been invaluable! We have seen strong and consistent growth in lead generation and overall engagement on all of our platforms.”

**Matt Srama | Buyers Agent,
SRAMA Director**

“As a result of working with Social Lab, last financial year we did over \$1 million GCI. We got over a 100 leads, 6 listings from it as well. We did over \$250,000 in gross commission directly through the leads that they generated for me.

Engaging the guys at Social Lab will be the best investment you'll ever make.”

**Lachlan Sproule | Real Estate Agent
SPROULE PROPERTY GROUP**

“The best part of working with Social Lab is their guidance and support. And on top of that, the ads and social media work perfectly together. The guys at Social Lab are the real deal! Don't miss out on the opportunity to grow your business!”

**Karyn O'Dea | Real Estate Agent
